Cessation of stimulant drinks—diseases.

521. Mr. K. M. Ibrahim.—Will the Government be pleased to state how they have given effect to the finding that complete cessation of stimulant drinks on the part of subjects, addicted to them, causes delirium tremens and other accompanying evils with reference to their supply of diets in Hospitals, Prisons and other public institutions?

Dr. D. Raghavendra Rao.—Generally a good many of the hospital-going and prison-going people are also tavern-going. The last habit helps them to the first two. Nothing is done to cater to these people in this line, but if they show signs of delirium tremens they will be appropriately treated for the same in hospitals including the Jail hospital.
